

Safety Instructions

Read and follow the safety instructions below:

- The lamp is not waterproof. Avoid exposing it to splashes or drops of water.
- The working temperature should be between -10 to 40°C (14 to 104°F).
- Avoid installing the lamp near heat sources.
- Avoid installing the lamp near potentially dangerous sources (e.g., candles, liquid-filled objects).
- The internal light source of the lamp cannot be replaced. If it breaks, you must replace the lamp.
- Only use this device with a 5VDC 2A power adapter.
- Avoid placing the lamp in high places, where it could fall and cause damage to the buttons and internal elements of the device.

Introduction

Thanks for choosing the Govee Night Light. With a variety of colorful light shows and rich soft white noises children can have a wonderful experience and fall asleep easily. In addition, the music mode and finger sketch of the lighting effects can create a unique space for the children.

Installing Your Device

Installing Steps

1. Place the lamp on the charging base and connect it to the adapter.
2. Plug the adapter into power to complete the installation.

Using the Bluetooth Mode:

1. When using the device for the first time, single click the Bluetooth button to enter the pairing.

2. Open the Bluetooth on the smartphone and connect to the device.

3. If you want to connect and play audio/music from other devices on the Night Light's speaker, press and hold the Bluetooth button for 3s to enter Pairing Mode and select Govee Night Light in your device's Bluetooth settings.

Choose "Govee Night Light."

Pairing Your Device with the Govee Home App

What You Need:

- A Wi-Fi router supporting the 2.4GHz and 802.11b/g/n bands. 5GHz is not supported.

Govee Home App

For FAQs and more information, please visit: www.govee.com

1. Download Govee Home App from the App Store (iOS devices) or Google Play (Android devices).
2. Turn on the Bluetooth in your smartphone.
3. Open the app, tap the “+” icon in the top right corner and search “H6057”.
4. Tap the device icon and follow the on-screen instructions to complete pairing.

Specifications

Power Input (Adapter)	AC 100-240V
Power Input (Charging Base/Lamp)	5VDC 2A
Luminous Flux	100lm
Battery Capacity	3.7Vdc 3000mAh
Light Displaying Technology	RGBICW
Working Temperature	-10 to 40°C (14 to 104°F)

Troubleshooting

1. **Cannot connect the device to Govee Home App.**
 - a. Ensure the device is powered on.
 - b. Check if the Bluetooth on your smartphone is enabled or try connecting with another smartphone.
 - c. When connecting for the first time, ensure your smartphone is close to the device.
 - d. If you're still experiencing a connection error, delete the connected device from the “My Device” page on the app. Then, reconnect to Govee Home App, following the instructions provided previously.
2. **The device lost connection.**
 - a. Ensure the device is powered on.
 - b. Shorten the distance between the device and the router to less than 50 inches, then reconnect.
 - c. If the device continues to lose connection, delete the connected device from the “My Device” page on the app. Then, reconnect to Govee Home App, following the instructions provided previously.
3. **Cannot pair or connect with Alexa or Google Assistant.**
 - a. Ensure the stability of the Wi-Fi connection.
 - b. Go to the “Device Settings” page and click “User Guide” to follow the instructions to pair the device again.
 - c. Check if the device is on Battery Saver Mode on the Device Settings page. Online functions are not supported under this mode.

4. **The synchronization effect for Music Mode is not working properly.**
 - a. Ensure the mic is close to the music source to help pick up sounds better.
 - b. Try switching the mic source to the smartphone.
5. **Can multiple users control the same device?**
 - a. Each device can only be controlled by one account.
 - b. If multiple users want to control the same device, ensure that they are all using the same account.

6. **The device has no sound or white noise.**
 - a. The device will preferentially display the sound of devices that is under the Bluetooth Mode and cannot response to other sounds.
 - b. Please check if the Prompt Tone and Silent Power-Up are activated on the “Device Settings” page.

7. **Cannot control the device.**
 - a. Please check if the device is close to the high temperature heat source or not because it will trigger the high temperature protection and will only return to normal when it is not.

FCC and ISED Canada Statement

This device complies with Part 15 of the FCC Rules and Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions:
 (1) This device may not cause harmful interference, and
 (2) This device must accept any interference received, including interference that may cause undesired operation.
 Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :
 (1) l'appareil ne doit pas produire de brouillage, et
 (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :
 (1) l'appareil ne doit pas produire de brouillage, et
 (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

1. Reorient or relocate the receiving antenna.
2. Increase the separation between the equipment and receiver.
3. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
4. Consult the dealer or an experienced radio/TV technician for help.

This Class B digital apparatus complies with Canadian ICES-005. Cet appareil numérique de la classe B est conforme à la norme NMB-005 du Canada.

FCC and IC Radiation Exposure Statement

This equipment complies with FCC and IC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

la distance entre l'utilisation et l'appareil ne doit pas être inférieure à 20 cm.

This device uses a non-replaceable light source. When the light source reaches the end of its life cycle, this device should be replaced. Not intended for illumination. Only used for creating ambiance.

1. Do not connect the rope light to the supply while it is in the packing or wound onto a reel;
2. Do not use the rope light when covered or recessed into a surface;
3. Do not open or cut the rope light;
